προς εγώ

Mr. Manioudakis,

I am sending you a Complete set of Construction Drawings for the IO-20. It is the same size as the 20' Ecoshell, but it is built with Insulation. The Monolithic Dome (insulated dome) is built a little differently than the Ecoshell.

These drawings may have information that could be used to get a building permit. Especially pages 3, and 13 and 14.
